LG Hands Over Land Papers To Landless Beneficiaries

Observer News Service

Srinagar: Jammu and Kashmir administration on Monday began the process of handing over land documents to the landless people of Jammu and Kashmir for house construction under the Pradhan Mantri Awas Yojna.

The documents were handed over to some of the selected beneficiaries by Lieutenant Governor Manoj Sinha at a function held here.

"It is a matter of happiness that I handed over documents of 5 marlas land to some beneficiaries who are landless but eligible for housing under PMAY. The respective Deputy Commissioners will do the same in their districts," Sinha said.

Dispelling the charges that this scheme might be used to alter the demography of Jammu and Kashmir, Sinha asked the grassroots-level representatives to keep an eye on the list of beneficiaries in their respective areas.

"The elected representatives are here. You should look at the beneficiary list and check if there is anyone from outside (JK). There are some people who are unnecessarily playing with the emotions of the people on every issue," he said.

"This decision was taken after a lot of thought that poor people should also have their own houses. But some people are doing politics even on this issue. This is one of the reasons why Jammu and Kashmir has not been able to progress," the LG said.

This decision will strengthen the rural economy >> More On P6

Efforts Being Made To Create J&K Of Bapu's Dreams: LG

Observer News Service

Srinagar: Asserting that efforts are being made to create Jammu and Kashmir of Bapu's dreams, Lieutenant Governor Manoj Sinha said Monday that the voices being raised against violence from every corner of the Union Territory and huge participation of people in 'Shanti Yatra' is a testament that the teaching of peace and inclusive development of Mahatma Gandhi have turned into a Jan-Andolan.

"Bapu's thoughts are powerful instrument for prosperity, dignity and empowerment of people. His timeless ideals are the only effective instrument to tackle the challenges confronting the world," the LG said.

UT-level event organized by the Department of School Education to celebrate the 154th birth anniversary of Mahatma Gandhi.

He was addressing the

The event also marked the

culmination of the 'Shanti Yatra' started from Anantnag and series of other programmes which are the part of the month-long celebrations of Gandhi Jayanti held in schools across the UT.

Extending his greetings to the people on Gandhi Jayanti and the birth anniversary of former Prime Minister Lal Bahadur Shastri, the LG recalled the eternal values of Gandhi, which he said, have been inspiring generations across the world and the power of truth, ahimsa, satyagraha, simple living is guiding entire humanity on the path of peace and brotherhood.

Sinha also applauded the inspirational journey undertaken by more than 27,000 students during Shanti Yatra to pay homage to Bapu and his ideas and ideals.

Researchers Discover Causes Of Liver Cell Scarring

ANI

hen damaged liver cells are replaced by scar tissue, hepatic fibrosis results. Cirrhosis, liver failure, and even liver cancer can arise as a result of cumulative scarring that, over time, restricts the blood flow to the liver. When the condition is severe, there is no other course of action.

A group of researchers led by corresponding authors David A. Brenner, M.D., president and CEO of Sanford Burnham Prebys, and Tatiana Kisseleva, M.D., Ph.D., professor of surgery at UC San Diego School of Medicine, describe the origin and fate of liver myofibroblasts, the cells that form liver scar tissue, as well as new research suggesting that liver fibrosis can be reversed if the right conditions are present.

"Liver fibrosis is quite common, in part because it can be caused by a number of things that damage the organ but result in scarring rather than healthy repair," said Brenner, a gastroenterologist and noted liver disease researcher. "Everything from viral hepatitis to excessive alcohol consumption to non-alcoholic fatty liver disease (NAFLD), which is extremely

common in the US."

Indeed, it's estimated that NAFLD affects approximately 1 billion people worldwide or roughly one-quarter of the human population. Roughly 20 per cent of patients with NAFLD progress to a more serious form called nonalcoholic steatohepatitis (NASH), characterized by inflammation of the liver, fibrosis and cirrhosis.

In their paper, Brenner, Kisseleva

and co-authors explain that myofibroblasts are not present in normal, healthy livers, but activate in response to chronic liver injury, such as excessive alcohol consumption. An inflammatory response triggers activation of hepatic stellate cells (aHSC), which transition from relatively scarce, quiescent, vitamin A-storing cells into proliferative myofibroblasts that secrete the scar forming proteins.

These myofibroblasts begin forming a chicken wire of non-functional scar tissue that, over time, thickens and coalesces to clog and choke the liver, cascading to other, life-threatening conditions.

"There are many causes of liver fibrosis and thus, there are no effective therapies currently because most efforts have focused on single targets when the nature of chronic liver injury is incredibly complex," Brenner said.

An emerging therapeutic approach, said the researchers, is to zero in on disrupting the creation of hepatic myofibroblasts while simultaneously addressing the underlying cause of the liver damage, such as a viral infection or excessive drinking. Do so, the thinking goes, and aHSCs revert to their dormant state and liver fibrosis disappears.

"That means zeroing in on the factors that activate hepatic stellate cells,' said Brenner, signaling pathways that turn them into scar tissue factories.

Recent studies in mouse models and humans have begun to illuminate these cellular and molecular mechanisms. And new single cell technologies and tools like spatial transcriptomics (which can comprehensively characterize tissue organization and architecture at single cell or subcellular resolution) will further the cause.

'Daylight Exposure May Help Treat Type 2 Diabetes'

Press Trust Of India

xposure to natural light type 2 diabetes, according to a small study.

The research, presented at the annual meeting of the European Association for the Study of Diabetes (EASD) in Germany from October 2-6, carried out a range of metabolic tests on a group of people with type 2 diabetes when they were exposed to natural light and when they were exposed to artificial light and compared the results. The misalignment of our internal circadian clock with the demands of a 24/7 society is associated with an increased incidence During the natural daylight interof metabolic diseases, including type 2 diabetes," said Ivo Habets of Maastricht University, the Netherlands, who co-led the research.

"Natural daylight is the stron- stant 300 lux. Evenings were spent

gest zeitgeber, or environmental cue, of the circadian clock, but most people are indoors during may help treat and prevent the day and so under constant artificial lighting," said Habets.

The yet-to-be peer-reviewed study involved 13 participants with an average age of 70 years who stayed in research facilities, which allowed their light exposure, meal, and activity patterns to be tightly controlled.

They were exposed to two lighting conditions during office hours (8 am to 5 pm) in a randomised cross-over fashion: natural daylight from windows and artificial LED lighting. There was a gap of at least four weeks between the two interventions, each lasting 4.5 days. vention, the light intensity was usually highest at 12:30 pm, with an average reading of 2453 lux.

The artificial light was a con-

in dim light (less than 5 lux), and the sleeping period (11 pm to 7 am) in darkness. The participants were provided with standardised meals, meaning they ate the same food in both interventions.

Blood sugar levels were continuously recorded by monitors worn on the upper arm, and a range of other tests were performed on the final day and a half of each intervention.

The study found that blood glucose levels were within the normal range (4.4-7.8 mmol/L) for longer during the natural daylight intervention than in the artificial light intervention.

The respiratory exchange ratio was lower during the daylight intervention than during the artificial light intervention, indicating that the participants found it easier to switch from using carbohydrates to fat as an energy source when exposed to natural light.

LG Awards Certificate Of Appreciation To DC Srinagar

Observer News Service

Srinagar: The Jammu and Kashmir Government on Monday awarded Deputy Commissioner (DC) Srinagar, Mohammad Aijaz Asad with Certificate of Achievement for his Exemplary Dedication, Unwavering Commitment & Outstanding Leadership in the pursuit of Swachhata and playing an instrumental role in achieving ODF+ Modal Status under an initiative of Swachh Bharat Mission (SBM-2.0).

The Certificate of Achievement was awarded to Deputy Commissioner Srinagar by the Lieutenant Governor, Shri Manoj Sinha at Raj Bhawan during a Felicitation Ceremony

organized by Rural Development Department to honor the contribution of the Officers and recognize their outstanding capabilities in the pursuit of Cleanliness under an initiative of Swachh Bharat Mission(SBM-2.0) The Deputy Commissioner Srinagar was honored and given recognition by the J&K Government for encouraging and fostering the environment of cleanliness at different forums under his official capacity. In this regard, the

Deputy Commissioner Srinagar has thanked his RDD Team and members of PRIs for their brilliant work and support to District Administration which has led to attainment of important milestones under SBM-2.0.

SMC Organizes Mega Event At Municipal Park On Gandhi Jayanti

Observer News Service

Srinagar: To commemorate the 154th birth anniversary of Mahatma Gandhi and recognize the invaluable efforts of the Safai Mitras (sanitation workers) in maintaining cleanliness in the City, the Srinagar Municipal Corporation (SMC) Tuesday organized a grand event at Municipal Park on the oc-

casion of Gandhi Jayanti.

The program was presided over by the Deputy Commissioner (DC) Srinagar, Mohammad Aijaz Asad as the Chief Guest.

The event was held under the theme of "Swachhata Hi Seva" aimed to acknowledge and appreciate the dedicated Safai Mitras(sanitation workers) for their relentless hard work and significant contribution towards the Swachh Bharat Abhiyan (Clean India Campaign). The highlight of the event was the provision of health check-ups for the Safai Mitras, ensuring their well-being and emphasizing their impor-

tance in the community. During his address, the Deputy Commissioner, Srinagar expressed his admiration and gratitude towards the Safai Mitras for their tireless efforts in keeping the Srinagar City clean and clear of garbage. He recognized their unwavering commitment and lauded their role as unsung heroes in achieving the vision of a Clean J&K. He further applauded their dedication and perseverance, acknowledging that their work has a direct impact on the overall well-being and quality of life for the residents of the City.

The DC lauded the SMC for organizing the event that served as a platform to raise awareness

SMC Humhama Ward Cleanliness Drive

Srinagar: Srinagar
Municipal Corporation Humhama today conducted a cleanliness drive at Humhama,
Rangreth Rawalpora,
area here.

On the request of

locals, a team of SMC led by a concerned ward officer Humhama, Abdul Majeed, Sanitation Officer Riyaz Ahmad, and other officers from the Srinagar Municipal Corporation (SMC) Humhama Ward 33 conducted the cleanliness drive from Friends Colony Humhama to

Rawalpora Bridge.

The cleanliness
drive Sunday for Srinagar under "'Swachhata Hi Seva' campaign,
under the guidance of
Prime Minister Narendra Modi, has become a
Jan-Andolan in J&K.

about the importance of cleanliness and encourage citizens to actively participate in the Swachh Bharat Abhiyan. He said the program is aimed to inspire individuals and communities to take responsibility for maintaining a clean and green environment, ultimately striving for a Clean and garbage-free Srinagar.

The DC on the occasion, presented certificates of recognition to the Safai Mitras as a token of appreciation, acknowledging their outstanding contribution in the cleanliness of the City and hygiene of the Citizens of Srinagar. The certificates symbolize the gratitude and admiration towards these unsung heroes who diligently carry out their duties, often in challenging conditions.

BSNL landline Connections Defunct In Nowgam

Observer News Service

Srinagar: Bharat Sanchar Nigam Limited (BSNL) landline subscribers of Sheik-ul-Aalam Colony, Nowgam here on the Srinagar outskirts on Monday complained that their connections have been defunct for the past several months.

They said despite bringing the issue into the notice of BSNL authorities, nothing serious was done to mitigate the sufferings of the subscribers.

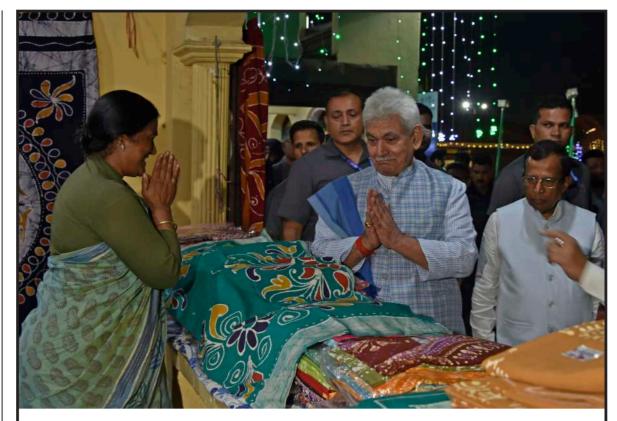

"Our landline services are defunct... We have time and again apprised the

BSNL authorities about this issue of ours, but they do nothing other than making promises. On the ground nothing has been done all these months," inhabitants said.

They said they are paying monthly rentals for zero services offered by the BSNL authorities.

"We are now mulling to discard BSNL landline connections," they told KNT.

Some residents urged the General Manager BSNL to personally intervene in the matter and direct the ground staff to repair defunct landline connections at the earliest.

CRPF Organizes Cultural Event At Lal Chowk

Press Trust Of India

Srinagar: Once a hub of anti-national protests, the Lal Chowk in Jammu and Kashmir summer capital Srinagar is now becoming a pivot for tourism and cultural activities.

As the CRPF band played various tunes as part of the rehearsal for an event that will be held on Tuesday, tourists and locals assembled in large numbers around the popular landmark that is fast becoming an open-air theatre in Srinagar.

"This is a memorable moment for us, for India that we are witnessing this event here at Lal Chowk, flying the tricolor. We are celebrating Gandhi Jayanti," Dolly, a tourist from Delhi, said as she watched the rehearsal of women motorcyclists who will be flagged off on an expedition to Kevadia in Gujarat tomorrow.

A group of CRPF women also practiced self-defense techniques in hand-to-hand combat at the newly-refurbished public area around the iconic clock tower, locally known as Ghanta Ghar'.

Dolly said it was a very good initiative and should be taken forward to empower women.

"They are being trained well in Karate... it builds confidence in us. We talk about women and men being equal, which is visible here in J-K." she said.

Another tourist from Delhi, Mukesh Jain said he never expected to see such a program at Lal Chowk. "This is for the first time I am

here at Lal Chowk and witnessing this... I never thought I could see this here," he added. Ayushi Jain said it was a great

experience for her on her first visit to Kashmir.

"Good thing here is to see that the army has given chances to girls they are performing very well and a great example of women empowerment," she said

Srinagar CRPF Inspector General Ajay Yadav said Kashmir was undergoing transformation.

"This is new Kashmir, badalta Kashmir, peaceful Kashmir. No doubt, this is a new beginning heralding a new era," he said.

Yadav said 150 women warriors, part of a motorcycle expedition, will be flagged off from Srinagar, Kanyakumari and Shillong simultaneously on Tuesday.

"You have seen the rehearsals and tomorrow the women's bike expedition will start from Srinagar and culminate at Kevadia, Ektanagar (Gujarat) on October 31," he said.

Yadav said while 50 women will start from Srinagar, an equal number will start from Shillong and Kanyakumari to travel more than 10,000 km to reach Kevaida on October 31.

Early Intervention

 Critical care ambulances are equipped with advanced medical equipment and trained medical professionals who can provide early intervention to patients during transit. This early intervention can help to stabilize patients and prevent their condition from deteriorating, thereby reducing the risk of mortality and morbidity.

Timely Transportation

 Critical care ambulances can transport patients to hospitals more quickly and safely than private transport, reducing the time between the onset of the medical emergency and the start of treatment. This can be critical in cases of heart attacks, strokes, or traumatic injuries, where every minute counts.

Reduced Complications • Patients who re

 Patients who receive critical care ambulance services are less likely to experience complications during transit or upon arrival at the hospital. This can result in shorter hospital stays, reduced healthcare costs, and improved patient outcomes.

Better Coordination

Critical care ambulance services often work closely with local hospitals and emergency medical services (EMS) to ensure that patients receive the appropriate care and treatment. This coordination can help to reduce the risk of medical errors and ensure that patients receive the best possible care.

Improved Accessibility:

Critical care ambulance services can help to improve the accessibility of healthcare services in remote or underserved areas. This can help to reduce health disparities and improve the overall health of the

Empowering Women

he recently enacted landmark legislation, mandating one-third reservation of parliamentary and assembly seats for women, has the potential to revolutionize gender equality in political representation. The bill had first been tabled in Parliament nearly three decades ago. Women in politics can advocate for cultural transformation that emphasize gender equality and the importance of women's economic contributions. It not only addresses the immediate need for gender equality in political voices but also offers a path to tackle the deep-rooted challenges that have constrained women's labour force participation in India and, in turn, drive economic growth and gender equality in the country.

To understand the far-reaching impact of enhancing women's representation in politics, it is important to highlight how far behind women are in almost all walks of life in India despite constituting 50 percent of the workforce. India ranks among the nations with the lowest representation of women in politics while grappling with an alarmingly low female labour force participation rate. In 2021, a mere 10.5 percent of India's Parliament members were women, falling far behind global counterparts such as sub-Saharan Africa (26 percent), Nepal (34 percent), and Pakistan (20 percent). Simultaneously, India's female labour force participation hovers at a dismal 25 percent, trailing the global average of nearly 50 percent, with only a few countries like Yemen, Iran, and Iraq reporting lower rates.

This is an eye-opener. Despite the one-third political representation, women have a long way to go. Anyways, the representation quote is not coming into effect in the next parliamentary election but may only be implemented in 2029 general elections, or the subsequent one in 2034. This is because the bill's implementation is subject to delays due to its linkage with two unrelated factors: delimitation and the Census. It is unfortunate that the implementation of women's reservation has been tied to delimitation, as the principle of reserving one-third of seats for women has no direct connection to the territorial boundaries of constituencies or the number of constituencies in each state. Consequently, women will not have access to the 33% reservation in the upcoming 2024 parliamentary election.

India granted women voting rights from the very beginning, so it should not have waited when it came to ensuring more substantial political representation for them. Achieving gender equality in politics is not just a matter of justice, it is essential for the country's growth and progress. To institute meaningful change in key areas, women must have a greater say in the decision-making process.

In Jammu and Kashmir too, the one-third political representation for women will make a marked redeeming difference to their plight. It would make a bigger difference when applied to Assembly elections as more women in the state legislature would give them a greater say in the affairs of the region.

OTHER OPINON

Guinea pigs

ne would have assumed that the modern healthcare sector would be an exemplar when it comes to upholding ethics. But sadly, this is not always the case: the segment abounds in examples of transgressions. Take, for instance, the recent findings concerning the disproportionate — unfair — distribution of volunteers in several of the hundreds of clinical trials that are being conducted across the world for the assessment of candidate drugs. According to the study published in PLOS ONE, 26 of the 424 global clinical trials sponsored by foreign institutions recruited an excess number of Indians as trial volunteers between 2013 and 2020. More than 60% of the volunteers were from India even though the ideal percentage should not be more than 50%. Most of these participants were roped in to evaluate medicines to treat afflictions like asthma, bacterial infections and cancer, which constitute a large share of the disease burden in India. But 18 of the 20 incomplete trials concerned disorders that are not "preferentially prevalent" in the country. Many of the sponsors of these medical trials are from populous countries like Brazil and Russia that could have found volunteers from within their own borders. The findings thus suggest that the ethical boundaries that are supposed to be honoured in the course of medical trials may not be that stringent.

may not be that stringent.

Significantly, India has emerged as a favoured pharmaceutical hub owing to such factors as a population with a large genetic pool, a streamlined approval process, high disease burdens, and low operational costs. But its rise as a pharmaceutical destination seems to have been accompanied by lax regulations along with easy access to poor and illiterate patients. The ethical loopholes also underline a medical challenge. The Cape Town Statement, the outcome of global deliberations on research integrity, envisions inclusivity and diversity of medical volunteers as the cornerstones of quality medical research since overdependence on a single population base or ethnic group leads to limited outcomes. The employment of a large number of Indians as volunteers could limit the effectivity of the candidate drugs to specific constituencies.

Local Body Elections J&K: A Litmus Test?

Arshad Khan

Local body elections have always served as a vital barometer of political support, acting as the very bedrock of any electoral democracy. However, in the context of Jammu & Kashmir, these elections assume an even greater significance due to changes that have transpired since the last village body polls were held

he forthcoming local body polls in the Union Territory of Jammu & Kashmir are poised to play an absolutely pivotal role in shaping the intricate and multifaceted political landscape of this region. These grassroots elections, particularly the highly anticipated Panchayat polls, are expected to take place in the months of October and November, marking a truly significant milestone in the democratic process that has been unfolding in this region

The stage was set for the firstever Panchayat elections in Jammu & Kashmir since its transition into a Union Territory. The esteemed state election commissioner, BR Sharma, had expressed his unwavering belief that these crucial polls should be conducted within the aforementioned timeframe. This sense of urgency stemmed from the fact that the current term of the existing Panchayat is set to conclude on January 9, 2024, leaving a limited window of opportunity to ensure a smooth transition of power and continuity in governance.

However, the Ministry of Home Affairs has reportedly taken the decision to defer polls until the Parliamentary elections expected to be held in mid-2024.

Local body elections have always served as a vital barometer of political support, acting as the very bedrock of any electoral democracy. However, in the context of Jammu & Kashmir, these elections assume an even greater significance due to changes that have transpired since the last village body polls were held. The region's bifurcation and the subsequent loss of its special status and state-

hood have fundamentally altered the political landscape, creating a complex tapestry of competing interests and aspirations.

On one side of the spectrum, the government contends that terrorism has witnessed a noticeable decline, paving the way for increased investments and development in the region. This narrative seeks to highlight the positive strides made in terms of security and stability, with the hope of attracting both domestic and international investments to foster economic growth and prosperity. However, Valley-based political parties vehemently argue that the democratic rights of the people have been suppressed.

Given these contrasting perspectives and the deeply entrenched divisions within the region, local body polls in Jammu & Kashmir will serve as a crucial platform for the people to voice their opinions and shape the future trajectory of the region. The outcomes of these elections will not

only determine the composition of the Panchayat but will also provide valuable insights into the prevailing sentiments and aspirations of the populace. It is through these elections that the people will have the opportunity to elect representatives who they believe will best advocate for their interests and work towards addressing the myriad challenges facing the region. As such, the significance of these polls cannot be overstated, as they hold the potential to shape the course of Jammu & Kashmir's political landscape for years to come, influencing the lives and aspirations of its people in profound ways.

Global View

Ethnic Cleansing in Nagorno-Karabakh

Asad Mirza

ast week's Azeri blitz against Armenian Christians is the latest chapter in a bitter, decades-long conflict between Armenia and Azerbaijan.

War between the two neighbours started during the collapse of the Soviet Union, of which both countries had been a part. Armenia won control over Nagorno-Karabakh and a wide surrounding region by end-1994. This also resulted in displacement of more than a million people, including hundreds of thousands of Azerbaijanis living in the disputed area.

In 2020, after a 44-day war Azerbaijan retook much of that territory, but the heart of Nagorno-Karabakh remains a de facto independent conclave. Moscow brokered a deal between the warring nations and Russian soldiers were deployed along the borders to protect the status quo.

At present, Lachin corridor is the only available route for most of the refugees fleeing Karabakh, Armenia's decision not to defend them and instead recognise the territorial integrity of Azerbaijan - accepting Karabakh's integration - was a bitter pill for most of the fleeing.

In fact the conclave of Nagorno-Karabakh is recognised internationally as part of Azerbaijan but large areas of it have been controlled by ethnic Armenians for three decades, and it remains at the heart of one of the world's longest-running conflicts.

Azerbaijani officials have said there would be no retribution against Karabakh residents who served in the military, except for those who had committed war crimes in previous conflicts. Further, Baku has promised to offer equal rights to all those who stay. Azerbaijan's president Ilham Aliyev said last week that the Armenian population in Karabakh could now breathe easy. They are our citizens.

Echoing international concern, the U.S. last week urged Azerbaijan to preserve civilian rights and allow humanitarian and monitoring missions, as hundreds of Armenians left their homes in Nagorno-Karabakh, citing fears of ethnic cleansing.

Reportedly on the first day of the exodus, at least 13,550 of the 120,000 ethnic Armenians who called Nagorno-Karabakh home arrived in Armenia.

However, so far, there has been no international condemnation of the Azerbaijani action, as Armenia complains of the Russian neglect to honour its pledge to safeguard Armenians due to involvement and focus of its forces on the Ukrainian conflict.

In fact, the latest move by Azerbaijan changes the balance of power in the South Caucasus region, a mixture of ethnicities. The region is also crisscrossed with oil and gas pipelines where Russia, the United States, Turkey and Iran are jostling for influence.

Since the breakup of the Soviet Union, Armenia had relied on a security partnership with Russia, while Azerbaijan grew close to Turkey, with which it shares linguistic and cultural ties.

Armenia has sought closer ties with the West, in view of Moscow's neglect, which Moscow denies and has told President Pashinyan that he is making a big mistake by flirting with the United States. Aliyev hinted recently at the prospect of creating a land corridor to Turkey across Armenia.

Regional powers have been heavily involved in the conflict over the years. Turkey has close cultural and historical links to Azerbaijan. Turkish-made Bayraktar drones are said to have played a crucial role in the fighting in 2020, allowing Azerbaijan

to make territorial gains.

According to latest UNHCR reports over 88,000 refugees from the Karabakh region have fled to Armenia in less than a week and humanitarian needs are surging, the UN refugee agency (UNHCR) said on Friday. Last week, UNHCR chief Filippo Grandi tweeted that more than 100,000 refugees had now arrived in Armenia from Karabakh.

In fact, this was a tragedy that could have been avoided. The New York Times recently wrote about what's now happening in Nagorno-Karabakh and why "almost no one saw it coming". Nothing could be more wrong. Armenians, as well as those who have followed the conflict, have warned for a long time that this was coming.

Persistent Power Cuts in Natipora

am writing to express my deep concern regarding the persistent electricity shortage that the residents of Srinagar in general and Natipora in particular have been experiencing in recent months. We are deprived of electricity for the whole day, multiple times a week,

besides the 3 hour curtailment in that is in place. This issue is not only inconveniencing residents but also adversely affecting businesses and overall quality of life. The frequent power outages have become a daily ordeal, leading to disruptions in our daily routines, spoiled food, and sig-

nificant economic losses for local enterprises and people working from home. Students are unable to study effectively. It is evident that the current state of our electricity supply infrastructure is insufficient to meet the growing or necessary demands of the society or even individuals.

Therefore, I urge our local authorities and utility providers to take immediate action to address this issue and help us to get rid of it.

Empowering Kashmiri Youth: Channelising Potential Towards Positive Change

Abid Hussain Rather

The former president of India, Indian aerospace scientist and statesman, famously known as missile man of India, Dr. APJ Abdul Kalam has aptly said that children and youth are the pictures of a nation's future. They are our hope for tomorrow. In other words we can say that for a brighter tomorrow, a nation needs to empower its youth. Youth empowerment is a process, to encourage youth by all means. It is an effort towards making a course for them to sustain and adapt as per situations. It is the process of involving the youth and the young population in the decision-making of a community. In the picturesque valleys of Kashmir, a region often synonymous with political turbulence, there lies a wellspring of untapped potential – its youth. The population size of young people in J&K is about 2.50 million, so focusing on youth and channelizing their potential towards positive change is of paramount significance. While the challenges faced by Kashmiri youth are undeniable, there is an urgent need to shift the narrative from conflict to empowerment, from despair to hope. By channelizing their energies towards positive avenues, we can create a brighter future for both the region and its young inhabitants. Youth empowerment in Kashmir is vital for fostering stability, development, and positive change. By engaging and empowering young people through education, skill-building, and meaningful opportunities, the region can tap into its youth's potential to drive social progress, economic growth, and a more inclusive society. Empowered youth are more likely to contribute positively to their communities, participate in decision-making processes, and create a sense of hope and optimism for the future. This can help address various challenges and contribute to a peaceful and prosperous Kashmir.

EDUCATION: THE BEACON OF HOPE

Education is the cornerstone of progress. By prioritizing quality education, we can equip Kashmiri youth with the skills and knowledge necessary to participate in a globalized world. Investments in modern infrastructure, vocational training centres, and scholarships can create an environment where young minds can flourish, paving the way for innovative contributions to various fields. Empowerment through education can also help counter negative influences and ideologies, providing a path towards economic independence, improved livelihoods, and social cohesion. By investing in education and offering opportunities for skill development, Kashmiri youth can become agents of positive change, driving

progress, and stability in the region.

ENTREPRENEURSHIP: FOSTERING INNOVATION

Encouraging an entrepreneurial spirit among Kashmiri youth can lead to self-sufficiency and economic growth. Government incentives, incubation centers, and mentorship programs can help transform creative ideas into viable businesses, generating employment opportunities and redefining the region's economic landscape. Entrepreneurship offers avenues for economic self-reliance, job creation, and community development. It empowers Kashmiri youth to take charge of their futures, contribute to the local economy, and address challenges with innovative solutions.

CULTURAL PRESERVATION: A SOURCE OF IDENTITY AND UNITY

Kashmir has a rich cultural heritage that spans centuries. By promoting art, music, literature, and traditional crafts, young Kashmiris can connect with their roots and find a sense of identity and purpose. Cultural festivals and events can serve as platforms for showcasing their talents and fostering unity within the community. Cultural preservation also offers opportunities for skill development, such as tradition-

6

CHANNELIZING THE ENERGY AND POTENTIAL OF KASHMIRI YOUTH TOWARDS POSITIVE AVENUES REQUIRES A MULTI-FACETED

APPROACH. Through education, entrepreneurship, cultural preservation, sports, community engagement, mental health support, and enhanced connectivity, we can empower these young individuals to shape a prosperous and harmonious future for themselves and their region

al crafts, music, and performing arts, which can be turned into entrepreneurial ventures.

SPORTS AND RECREATION: HEALTHY BODIES, HEALTHY MINDS

Engaging in sports not only promotes physical well-being but also cultivates discipline, teamwork, and leadership skills. Investing in sports facilities, organizing tournaments,

and supporting local athletes can create a positive outlet for the energy and enthusiasm of Kashmiri youth. Furthermore, investing in sports infrastructure and training programs can create opportunities for local athletes, coaches, and support staff, contributing to economic development. The success of Kashmiri athletes and sportsmen like Pervez Rasool and Umran Malik on a

national and international stage can inspire and motivate other youth to pursue their dreams.

COMMUNITY ENGAGEMENT: BUILDING A STRONGER SOCIETY

Involving young people in community service and volunteerism instills a sense of responsibility and empathy. By participating in initiatives such as environmental conservation, healthcare outreach, and disaster relief, Kashmiri youth can contribute to the betterment of their society and gain a deeper understanding of their role as change-makers. This engagement not only allows them to contribute their unique perspectives and ideas but also fosters a stronger connection to their community and its well-being. Through community-based programs, youth can develop leadership skills, collaborate with diverse groups, and gain practical experience that prepares them for active participation in shaping the region's future.

MENTAL HEALTH SUPPORT: NURTURING RESILIENCE

The psychological toll of conflict and uncertainty cannot be underestimated. Establishing accessible mental health services and awareness campaigns can help Kashmiri youth cope with stress and trauma, enabling them to harness their potential and pursue their aspirations with renewed vigor. By prioritizing mental health, we empower Kashmiri youth to overcome adversities, unlock their potential, and become agents of positive. Mental health support support not only enhances their overall well-being but also enables them to focus on personal and academic growth.

COMMUNICATION AND CONNECTIVITY: BRIDGING DIVIDES

Modern technology offers unprecedented opportunities for connectivity and communication. By providing access to the internet, online education, and platforms for expression, Kashmiri youth can transcend geographical boundaries and engage with the global community. Furthermore, enhanced communication platforms facilitate the exchange of ideas, cultural exchange, and collaboration, fostering a sense of unity and shared purpose among Kashmiri youth. By harnessing the power of communication and connectivity, young individuals can be provided with the means to express themselves and explore new horizons.

In conclusion, channelizing the energy and potential of Kashmiri youth towards positive avenues requires a multi-faceted approach. Through education, entrepreneurship, cultural preservation, sports, community engagement, mental health support, and enhanced connectivity, we can empower these young individuals to shape a prosperous and harmonious future for themselves and their region. It is pertinent to mention here that the government of Jammu & Kashmir has rolled out a pioneering initiative - Mission Youth to provide a platform for holistic implementation of all youth engagement and outreach initiatives, and to bring the interests and empowerment of youth to the centre of policy making. It has established around 4,290 youth clubs since its inception in 2021 where volunteer youth are trained to work through real challenges and make meaningful change. This mission has been very successful in empowering the Kashmiri youth and has turned out to be a game changer. Further such initiatives are the need of the hour that hold the potential to alleviate the persistent trauma and tension of Kashmiri youth that has affected their lives for far too long. By investing in the empowerment of Kashmiri vouth, we not only contribute to their personal growth but also lay the foundation for a more stable and harmonious region, fostering a sense of hope, unity, and progress that can lead to lasting positive change.

Motivation and Activation: Why Do You Need Both?

Candida Fink M.D.

assie, a young adult I knew many years ago, was excited about starting a fabulous new job at a sought-after design firm. She was highly motivated to do well. She had always been a high achiever and was driven to do the hard work to shine in her new position.

Unfortunately, over the course of the next several months, she developed crushing anxiety that became so severe she was missing work and falling behind on her projects. Even though she remained highly motivated, she was struggling to activate to tasks that she used to do with ease. Once her anxiety disorder was treated with therapy and medication, she was able to get back on track—her activation once again matched her motivation.

The concept of motivation in psychology broadly refers to the combination of energy, drive, and interest that pushes us toward a positive outcome that we need or want, or that pushes us away from something potentially dangerous or undesired. It can be as basic as motivation toward food when we are hungry or motivation away from sickness, leading us to sniff the milk before we put it in our coffee. And it can be as complex as motivation toward a planned academic or career path or motivation away from a person who has hurt us.

Activating to a task is starting the work that you need to do to achieve what motivates you. I may be motivated to write this article because I want to share this information and get people thinking about it. But if I don't activate to the tasks of turning

off a "Gilmore Girls" rerun, opening my computer, pulling up a document, and starting to type, I won't achieve the goal I am motivated toward. Motivation is necessary but insufficient—activation is the secret

EMOTIONS CAN ENERGIZE OR DRAIN ACTIVATION ENERGY

Activation and motivation zig-zag through numerous brain and body functions, such as thinking, feeling, moving, and socializing. Strong emotions—positive and negative—can drive motivation and activation.

If you are wildly excited about seeing Beyonce or Taylor Swift in concert, it's likely to be relatively easy for you to activate to the tasks of setting your alarm and waking up at midnight to sit at the computer for tickets, for example. Alternatively, if you have to set your alarm to wake up in the middle of the night to finish writing your English essay, that likely feels a lot harder. Negative emotions can drive motivation and activation as well, such as when fear motivates you to avoid a stretch of road where your car recently spun out in the rain, and it activates you to drive an extra half an hour to make that happen.

Boring or difficult tasks that our brain isn't excited about take much more mental and physical effort to start and complete, even if we are motivated to complete them. You might be motivated to eat the spaghetti carbonara that you saw on an Instagram cooking video, but if cooking isn't a highly desired and/or interesting task for you, the steps of shopping, preparing, and cleaning up may well feel like too much work. On the other hand, for someone who loves to cook, these tasks may feel exciting and fun, and therefore activating to them feels less painful.

LONG-TERM MOTIVATIONS NEED SHORT-TERM ACTIVATION

Our motivations occur along a continuum of long-term and shortterm time frames. If we are motivated toward something further into the future, such as going to college or getting a particular job, we will need to activate to many short-term tasks along the way, many of which will be less exciting than our longterm goals. Often, they are difficult, so activating to them may be a heavy lift

One common strategy is to build in more immediate motivators to help us activate to those less desired tasks. For me, it was M&Ms.

tasks. For me, it was M&Ms.

I was motivated to do well in medical school so I could graduate and become a doctor. I had strong motivation to study for exams, but activating to that task was painful for me and required short-term motivators, including M&M breaks at certain time intervals during my library sessions. It wasn't my only hack for short-term motivation and activation, but it worked.

Most of us use strategies to motivate and activate to boring or difficult things—and we teach our children and students to use them as well. Clearly, candy should not be the only motivator to use, but I stand by my strategy at the time.

MOTIVATION AND ACTIVATION ARE UNIQUE AND EVOLVING

Every person's motivation and activation profiles develop uniquely, from childhood into adulthood and they continue to fluctuate and change over the years. Factors such as ADHD, learning patterns, physical illness, fatigue, hunger, trauma, depression, anxiety, temperament (personality traits), social drive, and many other brain and body patterns, play vital roles in motivation and activation.

ADHD, for example, adds neurologic barriers to task activation—regardless of motivation. A child with ADHD may be highly motivated to do their homework, but activating to the task may be so challenging that they continue to struggle to even start their assignments, let alone finish them.

Energy and mood factors significantly affect motivation and activation. Say I am looking forward to seeing a friend because I anticipated a positive, happy experience. Usually, it doesn't feel like a heavy mental effort to activate to the tasks to make it happen—such as reaching out scheduling and planning.

out, scheduling, and planning.
But if my neighbor has taken up nighttime drum practice and I'm exhausted, then no matter how motivated I am, activating to the tasks will be much more difficult. And at the next level, if I am struggling with depression, my motivation to see my friend may be lower than usual and my energy to activate to make it happen may be near zero.

When you (or your child or your student) struggle with doing tasks, a helpful approach is to be curious—with yourself or that child. Try not to assume that it's a problem of low motivation but rather consider what might be getting in the way of activating to something, even if you (or they) are motivated. Exploring motivation is vital to achieving our goals, but unless we dig deeper into activation factors, it will be much harder to get there.

GANDHI JAYANTI

Govt Polytechnic College Bandipora Organises Swachhta Hi Sewa Programme

Observer News Service

Bandipora: Government Polytechnic College Bandipora participated in the Swachhta Hi Sewa Programme, a nationwide initiative to promote cleanliness and hygiene, coinciding with the commemoration of Mahatma Gandhi's birth anniversary. The event took place on 1st and 2nd October 2023, uniting students, staff, and local community members in a collective effort towards a cleaner and greener tomorrow.

The Swachhta Hi Sewa Programme, in alignment with Mahatma Gandhi's vision of a clean and healthy India, saw enthusiastic participation from the students, dedicated staff, and proactive members of the local community. The event emphasized the importance of cleanliness, sanitation, and environmental conservation, fostering a sense of responsibility among all participants.

Throughout the two-day event, Government Polytechnic College Bandipora organized various activities, including cleanliness drives and awareness sessions. Students actively engaged in cleaning their surroundings and spreading awareness about waste management. The college's staff members also played a vital role in organizing these activities, guiding the students and ensuring the smooth

execution of the program.

and healthier place to live.

Javid Iqbal Bhat, Principal Government Polytechnic College Bandipora, expressed gratitude for the overwhelming response from everyone involved. "The Swachhta Hi Sewa Programme reflects our dedication to Mahatma Gandhi's ideals. By actively participating in these initiatives, we are not only cleaning our surroundings but also nurturing a sense of civic responsibility and environmental consciousness among our students and the local community."

The event concluded on 2nd October Government Polytechnic College Bandipora Javid Iqbal Bhat.

and the social fabric in Jammu and Kashmir. "We have started afresh an effort to have city-like facilities in villages as well," Sinha said.

Mohammad Aslam, a resident of Khanpur Panchayat in Nagrota area of Jammu, said 600 families in his area will benefit from the government's decision.

"We have been living in Nagrota since 1974. There are around 600 families in Khanpur Panchayat. We are thankful to the LG for giving us the land for making our own house," Aslam said.

Rafeeq Ahmad, a beneficiary from Kishtwar district, said after 70 years of struggle, his family will finally have land to construct a house.

"We have suffered a lot. We have been pursuing the land for many years. We were living on forest land for more than 70 years. We are thankful to the LG and DC Kishtwar for giving the documents for the land," he added.

Earlier, the LG inaugurated the 'Cashless Panchayats', adoption of BHIM-UPI mode of transactions in Gram Panchayats of J&K

At the Swachh Bharat Diwas Celebration event organized by Department of Rural Development & Panchayati Raj at Raj Bhawan here, the LG also dedicated 13 Block Development Council buildings across J&K to the PRI representatives to mark the occasion.

In his address, the LG expressed gratitude to Prime Minister Narendra Modi has achieved the historic milestone of ODF Plus under 'Model' category.

He congratulated the RDD, representatives of Panchayati Raj Institutions and the citizens for achieving 100% cleanliness and Solid & Liquid Waste Management in all 6650 villages.

"Door to door collection of waste has been initiated in all the Panchayats, segregation sheds have been established and a financial model has been developed to ensure sustainability of the waste collection mechanism, thereby converting waste to wealth," Sinha said.

The LG shared the efforts of the UT Administration to bring socio-economic transformation in the lives of the people living in villages.

"Growth in rural areas is fueling the socio-economic development of J&K UT. Our villages have come closer to the cities in terms of facilities, connectivity and infrastructure," he said.

"With participatory approach, we have strengthened social and environmental security and creating entrepreneurship opportunities at the grassroot level," he added.

He said the on-boarding of 4274 Gram Panchayats of J&K on Cashless Mode today are the part of the government's endeavour to digitize the gram Panchayats and make them more transparent, accountable and effective.

The LG commended the Directorate of Rural Sanitation for its novel initiative of 'Swachhata Bulletin' to monitor and share daily updates, activities by districts in the spirit of Jan-Bhagidari and encouraging the community members to share feedback and contribute in building "Swachh and Swasth J&K".

He directed the RDD to ensure the new system put in place in rural areas for sanitation remains dynamic, the new facilities developed in this journey are properly maintained, and the waste management system

should be continuously monitored. Sinha also called for data analysis for day to day management of Swachh Gram and other future requirements with help of technology

like Artificial Intelligence. this occasion, the LG

contribution in Swachhata campaigns and in achieving ODF Plus

Five Beneficiaries Mantri Awas Yojana- Gramin (PMAY-G) Scheme 2023, an official spokesperson said.

Champions for their outstanding

Pertinently, as envisaged under PMAY-G Scheme, any person with a J&K domicile who does not own family land or is not entitled to inherit 5 Marla or more land will be in the scheme's ambit. After officiating the transfer of land rights and other formalities, the ADDC congratulated the beneficiaries on receiving the land documents, the spokesperson said.

While highlighting the benefits of the scheme, he said, the ADDC stated that this commendable effort is aimed at fostering upliftment and empowerment of the landless families.

"He added that the step is expected not only to enhance the living conditions of these five families but also serve as an example of inclusive development for communities across the district," he said.

The ADDC, the spokesperson said, asserted that the district administration is committed to implement the PMAY-G Scheme for deserving beneficiaries at grass roots level, the ADC said that various cases are in the waiting list which will be finalized after verification of credentials and other processes as per the guidelines issued by the government.

Efforts Being

but the society can also be made prosperous," he said

"Efforts are being made to create J&K of Bapu's dreams. The voices being raised against violence from every corner of J&K and huge participation of people in 'Shanti Yatra' is a testament that the teaching of peace and inclusive development of Mahatma Gandhi have turned into a Jan-Andolan," he added.

The LG urged every section of the society, especially the youth to imbibe wisdom from the valued teachings of the Father of the Nation and strive to build a peaceful, inclusive and equitable society.

"Each and every precious word of Bapu acts as an institution. What you will learn from his philosophy of life is not available anywhere else. Only the precious treasure of Bapu's ideals will be able to guide you in nation building and it will empower you to protect the social interests," he said.

"The lifelong campaigns of Pujya Bapu and his philosophy of truth, non-violence, selfless service, sacrifice, love and tolerance must continue to guide all the citizens to achieve the golden future of Jammu Kashmir," he added.

The LG also commended the artists and students for depicting the life of Mahatma Gandhi through their enthralling performances.

At the UT-level event, Sinha honored the eminent Gandhians from across the country for their extraordinary contribution in promoting the teachings and philosophy of Mahatma Gandhi.

He also interacted with the participants of the Shanti Yatra and felicitated the students who have excelled in various competitions organized as a part of Gandhi Jayanti celebration.

On the occasion, the Gandhians including Padma Shri SP Varma; Ramesh Bhaiya; Laxmi Das; Dr Ranjana Mukhopadhyay, and Ashok Kapoor threw light on the lifelong campaigns of Mahatma Gandhi.

Unveils Gandhi's

hurting others, to create an

inseparable bond between the rich and the poor, capital and labour," the LG said after unveiling of the statue. Sinha said Charkha' was used as a significant tool by Gandhi in the fight against British rule. It is a symbol of Swadeshi movement, self-reliance and economic freedom, he said.

Sinha added that Gandhi's ideals are for all of humanity. "I hope our officers, inspired by Bapu's ideas and ideals, will continue to work dedicatedly for the dignity of every citizen in the society, for equality, social justice, and for a developed and selfreliant Jammu Kashmir," he said.

The LG reiterated the commitment of the J&K administration to develop villages as the centre of socio-economic growth and transform the lives of the rural population.

"Today, villages in Jammu Kashmir are witnessing unprecedented growth due to the availability of various sources of income. New entrepreneurs are starting a new innings from villages. In terms of basic facilities, the gaps between village and the city are disappearing," he said.

Following the ideals of Mahatma Gandhi, in 2021-22, J&K established 21,640 manufacturing and service units in the villages with the help of Khadi and Village Industries Commission (KVIC), providing employment to more than 1.73 lakh. In the last financial year, 10,628 more units had been installed, he added.

The LG congratulated the Jammu & Kashmir Khadi and Village Industries Board (KVIB) for the installation of the statue of Mahatma Gandhi and the Charkha' installation. He also called for collective efforts by all the stakeholders for the promotion of swadeshi' products.

"There is a need to promote citybased self-help groups engaged in Khadi, which has become a new fashion statement for youth," he added.

PM, Shah Hails

the achievement of J&K administration.

"Heartiest congratulations to the people of J&K for achieving 100% ODF Plus status. After the abrogation of Article 370 under the leadership of PM @narendramodi Ji the J&K has attained new heights in development and growth. The schemes implemented by the Union Government are now being seamlessly extended to the nook and corners of J&K. People across the nation and those living in J&K have experienced the transformative change the region has undergone," Shah wrote on X.

He also extended his heartfelt congratulations to the LG Sinha and his administration for this 'remarkable feat'.

J&K Transfers 158 for promotion of tourism.

The government issued a formal order for transfer of land to the Ministry of Defence after the administrative council cleared a proposal

regarding this during its meeting on September 07, 2023. The administrative council headed by Lieutenant Governor Manoj Sinha is the highest decision-making body in the Union Territory.

According to the J&K government, the transfer of land shall be in terms of Rule 310 of General Financial Rules, 2017 on "no profit no loss basis" i.e. equal value infrastructure (EVI) as per the mutually agreed terms and conditions.

The administrative council has also given its in-principle approval for taking up the matter with the Ministry of Home Affairs for transfer/taking over 150 kanals, 15 Marlas at Rakhi Gund Aksha, Srinagar against equal value infrastructure to be identified by divisional commissioner Kashmir—(KNO)

Campaigning Ends

areas where there is a tough contest with the BJP.

BJP, which won one seat in the last election and later took its tally to three with the joining of two PDP councillors, has fielded 17 candidates this time. The Aam Aadmi Party (AAP) is trying its luck from four seats while 25 independents are also in the fray, the officials said.

Electronic voting machines (EVMs) are being used for the first time for the council elections.

According to election officials, out of 278 polling stations being set up across the district, 114 are hypersensitive and 99 sensitive. Additional companies of the Central Armed Police Force (CAPF) have already been deployed and are performing their duties to ensure peaceful polling.

In an official order issued on Sunday, election authority and Commissioner Shrikant Balasaheb Suse directed a total prohibition on holding public meetings and processions during the period of 48 hours ending with the hour fixed for the conclusion of the poll.

Suse also banned exit polls in the district till the conclusion of the poll and warned of action as per law against anyone contravening the directions.

The elections to LAHDC-Kargil was rescheduled from September 10 to October 4 on the directions of the Supreme Court which took serious note of the UT administration denying the "plough" symbol to National Conference candidates.

Holding that the National Conference is entitled to its symbol, the Supreme Court dismissed the Ladakh administration's plea on the issue and also imposed a cost of Rs 1 lakh on it.

Though the extended campaigning in the district remained a low-key affair, National Conference vice president and former chief minister Omar Abdullah addressed two election rallies at Drass and Kargil.

"We (the NC and the Congress) are fighting together to send a strong message to the people in the country that what happened on August 5, 2019, was undemocratic and based on injustice.

"With people's support, we are going to win the polls and they (BJP) are panicking," Omar had said.

Senior Congress leader Rahul Gandhi, during his nine-day trip to Ladakh in August, also addressed a public meeting in Kargil. The party's campaigning was mostly done by local leaders of the party from Ladakh.

Union Minister Meenakshi Lekhi campaigned for the BJP candidates and called upon the people of Kargil to vote the BJP to power for the allround development of the district.

BJP Lok Sabha MP from Ladakh Jamyang Tsering Namgyal also widely campaigned for the party candidates, seeking votes on the focused development of the region by the central government.

1000 Engineers,

MEIL, told Kashmir Observer that the work on the Zojila Tunnel was going on smoothly and will be completed on the set deadline.

Singh said that the work on the main tunnel (Part 1) from Z-Mohr tunnel to Baltal is almost completed with over 90 percent of the work done. He said that over 50 percent of the work on part-II of the tunnel starting from Baltal to Minimarg is completed.

"Out of 13 kilometers, over 7 kilometers of the excavation work on part-II of the tunnel is completed. We are hopeful that the breakthrough will be achieved in June of 2025,"Singh added.

The project spans a total distance

of 31 km, stretching from Sonamarg to Minimarg. Specifically, the segment between Sonamarg and Baltal measures 18 km, followed by a 13-km-long main tunnel connecting Baltal to Minimarg. Regarded as the longest tunnel of its type in Asia and situated at the highest altitude, it will drastically cut down the Zojila pass crossing time from a four-hour

journey to a mere 15 minutes. Singh further said that the main tunnel will be single lane- bi-directional tunnel while two other tunnels are twin-tube unidirectional.

"The main tunnel is 10 meters wide and will be ready as 7.5 meters. The height of the tunnel is also 9.5 meters approx and is of horse shoe shaped.

The Zojila Pass, located at an elevation of 11,578 feet on the Srinagar-Kargil-Leh highway, becomes impassable during the winter months due to heavy snowfall—leaving Ladakh cut off from the rest of the world for over six months.

This new tunnel, according to the officials, will provide an alternative route, ensuring all-weather connectivity and addressing the hindrance caused by winter closures.

Singh explained that keeping in view of the ecological fragile zone, the company is using an advanced technology—The New Austrian Tunneling Method (NATM), for the construction of the tunnel.

"Since Himalayan Mountains are very young and ecologically sensitive, we don't use (Tunnel Boring Machine) TBM for cutting," he added. He noted that if the weather per-

mits, the work on the project will continue during the winters also. Currently over 1000 engineers and

laborers are working on the project. Earlier this year, Union Road Transport and Highways Minister Nitin Gadkari along with Lieutenant Governor Manoj Sinha and Members of the Parliamentary Consultative Committee on Road Transport and Highways visited the Zojila Tunnel and reviewed its progress.

Search Ops

forces fired the probing shots to check the presence of suspected terrorists.

There was no contact with any suspected person during the operation which was continuing when last reports were received, the officials said.

All Parties Will Be **Consulted On One Nation, One Election: Azad**

Press Trust Of India

SRINAGAR: Former Congress leader Ghulam Nabi Azad, who is a member of the high-level committee formed to explore the feasibility of simultaneous polls, on Monday said all political parties will be consulted

gidity to pass the legislation in

both houses of the parliament. "It has come late. It should have come 15 to 20 years earlier It should have come even 30 years earlier. The earlier attempts like during the UPA, some of the constituent parties were against it.

before a decision on 'one nation, one election' is taken.

'Only a preliminary meeting has been held. It was an introductory meeting. I do not think there is any urgency in implementing it, as some people are saying, because consultations are to be held with national parties, regional parties, recognised parties . Many people have to be called (for consultation)," Azad told reporters here.

The veteran politician, who was named in the panel headed by former president Ram Nath Kovind, said, "It is also wrong to think that the committee will take a decision on its own. Everyone's opinion will be sought."

On the Women's Reservation Bill, the former J-K president and chairman of the Democratic Progressive Azad Party (DPAP) said the bill has come 30 years late but lauded the political parties for giving up ri-

"There was no unanimity. Now, at least there is unanimity, and it was passed in both Lok Sabha and Rajya Sabha. The government and all the parties, which did not stick to their rigidity and supported the bill this time, deserve to be congratulated for it," he added.

On the "delay" in holding assembly elections in Jammu and Kashmir, the former chief minister said polls were the essence of democracy and have to be held, even though these have been delayed. "It is unthinkable that there will be no elections. If there are no elections, there will be no democracy.

"And the elections are not only due but overdue, especially the assembly elections. Parliament elections are held on time, there has been no difficulty but it has been a long time since assembly polls were

J&K Oppn Leaders To Meet **Today To Discuss Situation**

Press Trust Of India

JAMMU: Leaders of opposition parties will meet here on Tuesday to discuss the emerging situation in Jammu and Kashmir and evolve a common strategy to counter its "antipeople" policies, CPI(M) leader M Y Tarigami said.

He claimed that Jammu and Kashmir has become a "slippery slope" for the BJP.

It is quite evident with the Union territory administration reportedly deciding to hold the urban local bodies polls and the panchayat elections, originally scheduled for later this year, after the 2024 Lok Sabha polls, Tarigami claimed.

"On one hand they (BJP) are making a hue and cry about restoration of normalcy and peace, but on the other hand, they are even hesitant to conduct the local polls," he said.

The meeting of the opposition leaders under the leadership of National Conference president Farooq Abdullah is scheduled to take place at a hotel in Jammu on Tuesday afternoon. PDP president Mehbooba Mufti will attend the meeting.

"The opposition parties are coming together at the national level. So, it is time for us as well to sit and understand each other, discuss the emerging situation (in Jammu and Kashmir) and find a commonality in our approach to counter the policies which are being forced on us without our consent," Tarigami told PTI.

He said all the parties, invited to the meeting, have confirmed

their participation. "Such a meeting of opposition parties is imperative as people are suffering immensely due to the wrong decisions of the BJP and the Jammu and Kashmir administration," the CPI(M) leader said.

A PDP leader said party president Mehbooba Mufti is reaching Jammu on Tuesday to attend the meeting. The meeting is taking place to evolve a joint strategy against the BJP which is "continuing its proxy rule and not interested in restoration of a democratically elected government" in Jammu and Kashmir, he said.

The Congress' James Kashmir unit president Vikar Rasool Wani said the opposition leaders would sit together in the larger interest of the public.

"The BJP has only caused miseries for the people of Jammu and Kashmir. We are fighting against it and will continue our fight," he told reporters in Kathua district.

Wani said that after the abrogation of Article 370 of the Constitution, the BJP promised to make Jammu and Kashmir number one in the country. "But after four years, we find Jammu and Kashmir in the number one position in corruption and unemployment, while the recent terror attacks exposed the party's claim of peace.'

"Militancy has been here for the last 33 years and has witnessed ups and downs. But the BJP is making false claims of finishing terrorism. We want terrorism to be finished, paving the way for peace and prosperity," the Jammu and Kashmir Congress chief said.

THOUSANDS OF PEOPLE, including students on Monday took part in a 'Run for Peace' Kashmir Marathon-2023 organised by Jammu and Kashmir police from Lake View Park Golf Course (LVPGC) to Duck Park via the picturesque Nishat-Foreshore road.

J&K Witnessing An Unprecedented Revival Of Vibrant Culture: LG

Attends Sanskriti Mahotsav, Featuring Prominent Folk Dances Of Karnataka

Observer News Service

SRINAGAR: Jammu and Kash-Lieutenant Governor, Manoj Sinha said on Monday that the objective of all the art forms and folk tradition is to create a bridge between different cultures and languages, weave them into one thread and to connect the society and the country.

Sinha made these remarks while attending the Sanskriti Mahotsav, featuring prominent folk dances of Karnataka, at Srinagar on Monday.

In his address, the LG welcomed the artists from Karnataka to the UT and commended the endeavour of the J&K Academy of Art, Culture and Languages to promote rich diversity and uniqueness of ageless Indian culture and the cultural inter-linkages between J&K UT and Karnataka.

"Our prime objective is to popularise cultural diversity and reconnect the young generation with incredible arts and performing art forms of the country. Such events are finest examples of 'Ek Bharat Shreshtha Bharat' and bring greater peace, prosperity and happiness in society," he said.

"Since ancient times, Karnataka has been the center of literature, architecture, music, dance and many folk traditions, customs and festivals. The oldest form of Yakshagana was first mentioned in Chandraprabha Purana. This world famous theater art has also been described in the Mallinath Purana of Nagchandra," he added.

The LG said that J&K UT was witnessing an unprecedented

ADC Directs Tehsildar To Prepare Relief Cases; Families Shifted To Nearby Panchayat Ghar, School

Agencies

SRINAGAR: A massive fire broke out in the Shalkote Rafiabad area of Sopore in north Kashmir on Monday morning, resulting in the destruction of seven structures including five residential houses, belonging to the minority Sikh community. An official saidthat the loss

of property is estimated to be worth lakhs of rupees. the Army responded quickly to

He said police, locals, and the scene to help douse off the flames, with help from the Fire & Emergency Department. "Fortunately, no lives were lost in the

incident, but at least five families have been left homeless," he said, adding that the cause of the fire remains unknown and is currently under investigation.

Residents affected by the fire include Baldev Singh son of Maya Singh, Deedar Singh son of Maya Singh, Mangat Singh, Igbal Singh and Charan Singh sons of Maya Singh and Karnail Singh son of Fakir Singh – each of whom is currently residing in the Shalkote Rafiabad area.

In response to the tragic incident, the Additional Deputy Commissioner Sopore S A Raina expressed condolences to the victims and pledged to

provide all possible assistance. The Tehsildar Rafiabad and Naib Tehsildar were instructed to submit the victims' relief cases immediately, and the Executive Engineer/AEE R&B Rafiabad was instructed to assess the damage for timely disbursement of relief under SDRF.

Meanwhile, fire victims have been temporarily shifted to the nearby Panchayat Ghar and a school while alternative accommodations are being arranged, the official said, adding that the Tehsil Supply Officer (TSO) Rohama has also been directed to assist the victims–(KNO)

NPP Stages Protest Against BJP Over Delay In Assembly Elections

Press Trust Of India

JAMMU: Activists of the National Panthers Party (NPP) on Monday staged a protest here against the BIP and the Election Commission of India for not holding assembly elections in Jammu and Kashmir.

Led by their president Harsh Dev Singh, a group of NPP activists gathered outside the headquarters of the State Election Commission (SEC) to lodge their protest over the delay in assembly polls.

"We are holding this protest to highlight the murder of democracy in Jammu and Kashmir over the past five years by the ruling BJP the ECI has surrendered before the BJP and is depriving the people of a democratically elected government," Singh, a former minister, told reporters.

He claimed that the elections are being delayed at the behest of the BJP on one pretext

Mehta e- Inaugurates **Geo-Science Museum At SIDCO Budgam**

'The Museum Would Serve As One Of The Best Research Centre For Scientists'

Observer News Service

BUDGAM: Chief Secretary, Dr. Arun Kumar Mehta on Monday inaugurated Geology and Mining Department's first of its kind Geo-science Museum & District Mineral Office Budgam at SIDCO Budgam.

Speaking on the occasion, Chief Secretary appreciated the department of Geology and Mining for opening the Geoscience Museum as a centre for research for all geologists and scientists.

Dr Mehta said the centre would not only serve as a spot of Geoscience tourism but also help preserving out rich geo

Chief Secretary virtually also inspected the 150 samples of fossils, rock minerals and industrial minerals of J&K preserved at the Museum.

He emphasised that the Museum is made a place of learning and awareness regarding the rich geo heritage of Jammu and Kashmir for the students also.

Secretary Mining, Dr Rashmi Singh who addressed a gathering during the inaugural function said that it is great achievement that rare and huge collection of minerals have been kept under one roof at this Museum.

She urged teachers and school heads to make best use of this museum to generate awareness regarding preservation of rich heritage of J&K among students.

Secretary Mining also deliberated on the different facets of the Department preserving Mineral and Geological resources.

As a mark of tribute on Father of the Nation, Mahatma Gandhi on Gandhi Jayanti various stone carved models including Charkha were also displayed in the Museum.

Paying rich tributes to Mahatma Gandhiji, the Secretary also led pledge ceremony on Non- violence, Swachhta and Drugs on the occasion.

Compendium on District Mineral Foundation Trust and Pradhan Mantri Khanij Kshetra Kalyan Yojana was also released on the occasion.

The welcome address was presented by the Director Geology and Mining, Om Prakash Bhagat and Joint Director Nisar Ahmad Khawaja presented welcome address.

Professor GM Bhat presented the overview of preservation of fossils, minerals and other resources.

JKP Fights Enemy That Gets Support From Outside: Spl DGP

'The Biggest Effort Of Our Fight Is To Reduce The Fear In The People'

Press Trust Of India

SRINAGAR: Jammu and Kashmir Police is a unique force that fights an enemy which receives support from outside and strengthens itself internally, the Special Director General of Police R R Swain said on Monday.

The special DGP also referred to Mahatma Gandhi's idea of non-violence, and said that a state of non-violence can be "achieved only by protecting the non-violent people from the violent".

"Jammu and Kashmir police is a force that is unique because it is taking on an enemy who is very organised, is internally. The J&K Police are fighting this enemy with the support of, and for, the people,' Swain told reporters at the end of a marathon race organised by the police on the banks of Dal Lake here.

Undertaking such a fight, Swain said, takes a lot of courage since the fight "is against few people from within".

"It needs a lot of courage which the other forces do not have to face. The other forces have skills, experiences and knowledge but there are many differences between our difficulties and their difficulties. The biggest effort of our fight is

to reduce the fear in the people.

"So, despite the difficulty, the police carry on the fight silently keeping in mind the section of the society which are not getting strength from outside heard be it a poor shopkeeper, and tries to strengthen itself a low ranking government employee, a lawyer or a journal ist," he added.

Swain said the J&K Police will stand by all those who want to earn an honest livelihood by abiding by laws. "This is our message on Gan-

dhi Jayanti. Gandhi was for nonviolence but that state of nonviolence can be achieved only by protecting the non-violent people from the violent," he said.

"So we would like to make a distinction between those who are wedded to violence because of ulterior motives, those are the ones we are fighting. And this fight is for the people,' he added.

CSIR-IIIM Organises Cleanliness Drive Under Swachhta Hi Seva Campaign

Observer News Service

JAMMU: CSIR-Indian Institute of Integrative Medicine, Jammu is observing Special Campaign 3.0 from Monday till October 31st for improving Swachhata and minimizing pendency in Government offices.

The month-long Special Campaign 3.0 was launched on Monday by Dr. Zabeer Ahmed, Director, CSIR-IIIM after paying the floral tribute on the portrait of Mahatma Gandhi. The Scientific, Technical, administration staff members, students and other workers also paid homage to Mahatma Gandhi on his 154th Birth anniversary.

During launch of the event, Director, CSIR-IIIM while addressing the staff said that the Special Campaign 3.0 aims at improving overall cleanliness of Government offices and enhancing public experience of common public with Government offices.

He further added that the campaign which will focus on liquidating pendency in the offices, coincides with the Birth Anniversary of the Father of the Nation. Mahatma Gandhi and at CSIR-IIIM it will continue till 31st of this month during which a series of events related to Swachhta Sharmdaan would be conducted. The Director empha-

sized the importance of "Swachhata" and encouraged the staff members and students in religiously maintaining the "Swachhata" at their work places and surroundings.

As a part of this Special Campaign, today a cleanliness drive was conducted in the main campus of IIIM, its Branch Lab. Srinagar and the Field stations to provide a clean and healthy working environment for its employees/visitors. CSIR-IIIM. Jammu under the ministry of Science and Technology observed this program for cleaning of lab., disposal of waste, cleaning the institute premises and its beautification.

The Special Swachhta Campaign 3.0 took off with enthusiasm under the leadership of Director, CSIR-IIIM, Jammu and with the guidance of "Swachh Bharat Mission Committee" comprising PN Gupta, Vikram Singh (Sr. COA), Ajay Kumar, Ravi Shanker, Raiendra Bhanwaria, Love Sharma, Chandra Pal Singh, Arvind Kumar Yadav, Jai Sharma (AEE Civil) and Bhupinder Singh (Security officer). Director IIIM appreciated the role of all HODs, different stakeholders, especially the students, sanitation section and engineering department for their active participation on day 1 of this special campaign 3.0.

India Not Following Gandhi's Ideals, Bemoan Mehbooba, Omar

Press Trust Of India

SRINAGAR: PDP president Mehbooba Mufti on Monday said the country had strayed from the ideal of love, compassion and tolerance espoused by Mahatma Gandhi but hoped that, sooner or later, people will reclaim the India he envisaged.

In a similar vein, National Conference leader Omar Abdullah said that people only remember him while travelling abroad or when foreign dignitaries visit In-

Gandhi's 154th birth anniversary was celebrated on Monday. Hailed as the Father of the Nation, he led a nonviolent struggle for India's freedom, and continues to be a globally revered figure.

In a post on X', Mufti said, "Today, as we remember Gandhiji, one is painfully aware of how far this country has strayed from the ideals of love, compassion and tolerance that he laid his life down

for," Mufti posted on X. "I'd still like to believe that his sacrifice wasn't in vain & that sooner or later we will reclaim the India that he envisaged," Mufti added in the

Speaking to reporters

here, Abdullah said that people are acting opposite to what Gandhi stood for. "Unfortunately, some-

times it feels that we remember Mahatma Gandhi only when we travel outside the country or when some foreign leader comes to visit. We tell them about Gandhiji and take them to Rajghat. For the rest of the year, not only do we forget him but there is an effort to act opposite to what Gandhiji stood for," Abdullah said.

The former chief minister said the country should follow Gandhi's message of equality and justice.

"If we remember the teachings of Gandhiji and follow them, it will be better for this country. Gandhiji taught us equality and justice for all. That's what we need right now," he said. To a question on the meet-

Jammu and Kashmir, the NC leader said the meeting is scheduled to be held in Jammu on Wednesday. "Let the meeting be held and they (those who attend) will tell you after the meeting. Farooq (Abdullah) Sahib

has called the meeting in

Jammu. What can I say about

it in Srinagar?" he said.

Kohli Skips Practice Session Due To Personal Reasons

Press Trust of India

MUMBAI: India's star batter Virat Kohli didn't join the team's optional practice session in Thiruvananthapuram due to personal reasons but is expected to link up with the squad before the second warm-up game against The Netherlands on Tuesday.

Kohli had left for Mumbai from Guwahati for some emergency personal reasons on September 30 and wasn't available for the afternoon training session at the local college ground in Thiruvananthapuram.

"It was an optional session. He is expected to join the squad soon and could play the warm-up game if required," a BCCI source privy to developments told PTI on condition of anonymity.

On the day, skipper Rohit Sharma, batter Shreyas Iyer and pacer Mohammed Shami also skipped the ses-

sion which was attended by the likes of Shubman Gill, Suryakumar Yadav, Jasprit Bumrah and veteran spin duo Ravichandran Ashwin and Ravindra Jadeja.

The World Cup warm-up match against the Dutch will be the last chance for India to get some game time before the start of tournament proper against Australia in Chennai on October 8.

The Indians had a fullfledged session with Gill, Surya and KL Rahul batting for a considerable amount of time against the likes of Bumrah and Mohammed Siraj.

Ashwin and Jadeja also rolled their arm over for considerable period of time as they both are going to play a massive role in this World Cup on tracks which are expected to offer turn.

ODI World Cup: Unpredictable Pakistan Need **Openers & Spinners To Raise The Game**

Press Trust of India

HYDERABAD: One can never write off Pakistan in a global event and that will be the case again when Babar Azam and company head into the ODI World Cup in India on the back of an inconsistent run.

Not so long ago, Pakistan were looking like a well-rounded unit but their Asia Cup campaign has exposed the chinks in their ar-

Playing in India will give the players the chance to become national heroes overnight. Pakistan open their tournament campaign against the Netherlands here on October 6.

Here is the SWOT analysis of the most unpredictable team in world cricket:

STRENGTH

Despite the injury to Naseem Shah, Pakistan's pace attack remains a potent force. The ball tends to swings in the powerplay at most venues in India and Sha-

heen would be aiming to exploit that including against India in Ahmedabad on October 14.

His new ball partner in Naseem's absence remains undecided but the choice is likely to be between the seriously quick Haris Rauf and the Hasan seasoned Ali, who is making a comeback.

The batting relies heavily on Babar Azam and Mohammad Rizwan and they both looked in sublime touch in the opening warm-up against New Zealand here on Friday. It could be a legacy defining campaign for Babar who would aim to lead from the front.

WEAKNESSES

The absence of Naseem has definitely created a window of opportunity for the opposition batters. Shaheen and Naseem are relentless with the new ball and rivals have to deal with only one half of the destructive duo. Rauf, who usually comes in to bowl as first change, opened the

bowling against New Zealand but did not look as effective despite his express pace. There will be added pressure on Hasan who is likely to be targeted by rival teams in all phase of the

game considering his

The opening combination of Imam Ul Haq and Fakhar Zaman also don't inspire a lot of confidence. Big match batter Zaman needs to overcome his inconsistency while Imam, who has a 50 plus average in 66 ODIs, needs to bat a higher strike rate than his current 82.18.

medium pace.

The form of spinners Shadab Khan and Mohammad Nawaz is also a concern.

OPPORTUNITIES

The tournament presents a massive opportunity to the likes

of Saud Shakeel, Iftikhar Ahmed and Salman Agha. However, not all three are expected to feature in the playing eleven at the same

Shakeel, who has proved his mettle in Test cricket averaging a staggering 87.50 in seven games, is yet to make the same impact in the 50-over format. He looked good against New Zealand in the warm-up and will be hoping that more chances comes his way.

Middle-order batters Iftikhar and Agha will be expected to chip in with part-time off-spin over the course of the long tournament.

As vice-captain Shadab Khan pointed in the media interaction on Sunday, the last thing Pakistan need is another injured squad member. Naseem's loss has disturbed the balance of the bowling attack and they can't ill-afford another key player on the sidelines. Pakistan have the tendency to self-implode and they will need to be wary of that.

Children participate in the J&K Police-organised 'Run For Peace' mega marathon in Srinagar on Monday. The marathon route stretched from Lake View Park Golf Course to Duck Park via the picturesque Nishat-Foreshore road. Prizes worth Rs 6,52000 were distributed among winners of 13 different categories. Two Matches Played In Srinagar Premier League

Observer News Service

SRINAGAR: The 2023 Srinagar Premier League action continued on Monday, with two Round 16 matches taking place.

Novelty FC played Real Kashmir FC (Reserves) at Bakshi Stadium in the day's first game. The first half had no goals in it, but just when the match seemed heading to a draw, Novelty's Arhan scored the winner in 82nd minute to give his team a 1-0 win.

The second game was played at Synthetic Turf TRC here, with J&K Bank Academy taking on J&K United FC. The game ended in a 0-0 draw with both teams failing to capitalise on goal-scoring opportunities.

Provincial Level Football Tournament Begins At Baramulla

Observer News Service

BARAMULLA: The highly anticipated Inter-District Provincial Level Under-14 Boys Football tournament commenced on Monday at Showkat Ali Stadium here.

The inaugural ceremony witnessed the presence of District Statistics & Evaluation Officer Baramulla, Ishtiyag Ahmad Khan and other dignitaries from the DYSSO Baramulla.

This football tournament has brought together all 10 districts of the Kashmir province in a display of unwavering enthusiasm.

The tournament's opening match showcased an exciting showdown between Srinagar and Baramulla, with Baramulla securing a triumphant 3-1 victory. In the second match, Kupwara faced-off against Pulwama, and Kupwara emerged victorious with a 6-1 score. The third match featured a clash between Shopian and Bandipora, culminating in Bandipora's remarkable 5-0 victory. In the fourth match, Kulgam and Budgam battled it out, with Budgam prevailing 2-0.

Lost Asian Games Bronze To A Transgender Woman, Alleges Swapna

Press Trust of India

HANGZHOU: India's Swapna Barman on Monday sparked a controversy with sensational allegations that she lost out on a bronze medal in the women's heptathlon competition of the ongoing Asian Games to a "transgender" athlete.

Swapna, who had won the gold medal in the 2018 edition of the Asian Games in Jakarta, alleged that compatriot Nandini Agasara was ineligible to compete in the women's event as she is a "transgender" but later deleted her post from social media.

Nandini won the bronze medal in women's hentathlon here, while Swapna failed to defend her crown, settling for the fourth position on Sunday.

"I have lost my Asian Games bronze medal to a transgender woman at the 19th Asian Games held in Hangzhou, China. I want my medal back as it is against the rules of athletics. Help me and support me please," Barman wrote on 'X', for-

merly Twitter. A few hours later, she deleted the tweet even as the Athletics Federation of India (AFI) chief Adille Sumariwalla refused to make an official com-

It is expected that the AFI will resolve the issue once the Games are over.

Nandini aggregated a total of 5712 points, a personal best. She topped the final event of the heptathlon, the 800m race, to ensure a spot on the podium, ahead of Barman, Besides the 800m event, Nandini also won the 200m race, that earned her 936 points.

The medal in Hangzhou is the 20-year-old Nandini's first international achievement. She represented India in 100m hurdles in the World U20 Championships in 2021 and 2022 where she

finished seventh in the final. The Asian Games here was also her first senior international tournament.

Sources said the athlete had since returned home due to some family reasons and repeated attempts to contact her over phone failed.

VAR Was Supposed To Cut Out Errors. Now The Integrity Of The Premier League Is In Question

The Associated Press

MANCHESTER: VAR was supposed to put an end to all of this. The fallout from Luis Diaz's wrongly-disallowed goal in Liverpool's 2-1 loss at Tottenham on Saturday resulted in the Merseyside club issuing a statement, saying it would "explore the range of options available given the clear need for escalation and resolution.'

It is not clear what those "options" are and The Associated Press has contacted Liverpool and the Professional Game Match Officials Limited (PG-MOL), the referees' governing body, for clarification.

But the tone of Liverpool's statement on Sunday revealed the club's frustration after Video Assistant Referee (VAR) Darren England failed to award Diaz's goal, despite replays clearly showing the forward was on-

The PGMOL later acknowledged the mistake was a case "significant human error" and England and his assistant

Dan Cook were stood down from further duty over the weekend.

Diaz's goal would have put Liverpool 1-0 up against Tottenham and a win would have seen Jurgen Klopp's team move to the top of the standings, above defending champions Manchester City.

"It is clear that the correct application of the laws of the game did not occur, resulting in sporting integrity being undermined," Liverpool said. "We fully accept the pressures that match officials work under but these pressures are supposed to be alleviated, not exacerbated, by the existence and implementation of VAR."

Saturday's error appears to have been one of concentration and communication.

The mistake was reportedly the result of the VAR believing Diaz's goal had been given. Upon review the verdict was to say the check was complete, meaning it was correct for the

goal to stand. But as the original on-field

decision was to adjudge Diaz offside, the response of "check complete" appeared to confirm the offside decision was correct.

VAR was introduced to the Premier League at the start of the 2019-20 season after a longstanding debate over the use of

video replays.

But while the technology allows officials to review incidents frame by frame on a TV

monitor, the potential for human error still remains. Last season VAR failed to rule

out an Ivan Toney goal against

crashed into Sasa Kalajdzic in stoppage time at Old Trafford.

Wolverhampton manager Gary O'Neil said he received an apology from the PGMOL.

United when Andre Onana

Apologies, however, do not make up for costly errors.

"We will not get points for it so it doesn't help," Klopp said Saturday. "Nobody expects 100% right decisions on-field,

but we all thought when VAR comes in that it might make things easier." The PGMOL said it would

conduct a full review into the incident.
